With the Exception of the last two Minature Sophronites Hybrids, most
of the other new hybrids listed above are still available at this time
(March 1st. 1963) Our early 1963 list was mailed to those on our Mail
list. If you have missplaced your copy and wish another please write.

Perhaps you would like to suggest a name for one of our still unnamed
new Hybrids, or perhaps you would like to have one named in your honor.
If so, please tell us.
